

# ADAM ROHAL

## Full Stack Developer | Junior Software Engineer

Moroccan | +212 671645861 | Rohal.dev@hotmail.com | [adamrohal.tech](http://adamrohal.tech) | [linkedin.com/in/adrohal](https://linkedin.com/in/adrohal)

Full Stack Developer with 2 year and 5 months of hands on experience in .NET, JavaScript, and PostgreSQL. Strong focus on clean code, performance optimization, and scalable architecture. Passionate about solving real-world problems through web and desktop applications, Currently open to full-time or remote opportunities in Full Stack or DevOps roles.

## WORK EXPERIENCE

► **Full Stack Developer | Expertus - Audit & Conseil | Casablanca** Aug 2024 - Present

- Lead developer on Logec, a full-stack business platform in ASP.NET MVC with Kendo UI, used for client, mission, budget, and admin management
- Integrated UI with Telerik, DevExpress, Bootstrap, and jQuery; backend with Entity Framework and PostgreSQL
- Built budget calculators, Excel import/export via ClosedXML, and localization/multi-language features
- Managed CI/CD and source control with Azure DevOps, and applied security via Claims Auth, Argon2id, and audit logs

► **Full Stack Developer Internship | Expertus - Audit & Conseil | Casablanca** June – August 2024

- During my internship at Expertus, I contributed to the early phases of a strategic internal project.
- My main responsibilities included UML modeling, understanding software architecture, and learning and using ASP.NET MVC, Entity Framework, and PostgreSQL.
- This experience strengthened my technical skills and my ability to work within a team in a structured and demanding environment.
- Participate in incident or problem resolution and document solutions.
- Modify the installation guide based on technical developments.

► **Software Developer PFE | IISGA Group | El-Jadida** Jan 2024 - Jun 2024

- Developed EduTrack, an educational management system, as part of my PFE at IISGA Group. The project involved designing and implementing a C# WPF application to manage employees, teachers, students, and classes efficiently.

► **Software Developer Internship | Expertus - Audit & Conseil | Casablanca** Jul 2023 - Sep 2023

- I developed a C# WinForms application using .NET Framework 6.0, featuring a login and registration page for user authentication. The app securely stores user information in a database, allows account access, and includes a specialized form for "Taxe Professionnelle." It connects to an Access database for efficient data management and uses XML for data exchange.

## EDUCATION

**Bachelor's Degree, Web Development** 2024 - 2025  
Federation for European Education

**Associate's degree, Computer Science** 2022 - 2024  
IISGA Group

**Computer Information** 2021 - 2022  
KINGDOM OF MOROCCO - NATIONAL MUTUAL AID

**Scientific Baccalaureate** 2020 - 2021  
Lycee Moulay Bouchaib
